EXPERIENCE

Software Developer

Development & Data Analysis & Reports E.I.R.L.

Dec 2023 – Ongoing Lima, Perú - San Martin de Porres

- RPA Development
- BMC Remedy API Management
- Database management, Linux commands, and servers
- Artificial intelligence model developer
- Bot developer

Software Developer

Metatest S.A.C.

Dec 2024 – Nov 2025 Lima, Perú - Huachipa

- Module maintenance in Odoo 14
- Developer of new features in Odoo 14
- Artificial intelligence model developer

PROJECTS

Intelligent Software Portfolio

UNMSM

Jan 2023 – July 2023

- Developed a Genetic Algorithm for automated academic scheduling.
- Implemented Image Processing techniques for fruit classification and quality control.
- Built a Naive Bayes classifier for glucose level prediction and health monitoring.
- Designed a Neural Network to forecast household energy expenditure.
- Created an NLP model to analyze and categorize positive feedback.

Skin Health AI Detection

UNMSM

Project duration - 4 months Aug 2023 – Dec 2023

- Developed a mobile application that captures facial images to analyze acne severity.
- Integrated a custom-trained YOLOv8 model for real-time object detection and classification of skin conditions.

MY LIFE PHILOSOPHY

"Believe in yourself."

MOST PROUD OF

Contributor - KCD Lima 2024
The badge is given to speakers and volunteers who supported the KCD Lima Peru through their expertise as either subject matter experts, or event planning volunteers.

Reinforcement of ICT use in a school to improve learning
Enhanced student development through digital literacy and interactive learning environments.

STRENGTHS

Hard-working | Eye for detail | Motivator & Leader

C++ | Python | Java | Cobol | Linux | Embedded Systems | Statistical Analysis

Spanish ●●●●●

English ●●●●○

Italian ●○○○○

EDUCATION

BSE. Software Engineering

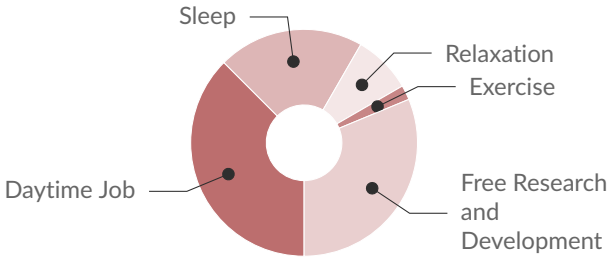
National University of San Marcos

Oct 2021 – Dec 2025

Thesis title: Technological Solution to Prevent Accidents in Public Spaces through Computer Vision and Neural Networks for Real-Time Detection of Risk Situations

- Optimized the inference process to ensure a smooth user experience on mobile devices.

A DAY OF MY LIFE



PUBLICATIONS

Certificates

- "Huawei ict competition 2024-2025." National Competition - Computing Track, Huawei. (2025).
- "Hcia-5g training." 5G Architecture, Air Interface, and 5GtoB Service Applications, Huawei Academy. (2024).
- "Hcia-ai training." Deep Learning, AI Software Development, and AI APP, Huawei Academy. (2024).
- "Hcia-cloud training." Cloud Basics, Network/Storage Services, O&M, and Databases, Huawei Academy. (2024).
- "Qworld bronze-qiskit." Introductory quantum computing: qubits, entanglement, and algorithms, QWorld. (2024).
- "Qworld nickel." Oracular algorithms: Deutsch-Jozsa, Bernstein-Vazirani, Simon's, and Grover's, QWorld. (2024).

Research Articles

- F. Chuquispuma, M. Saavedra, and L. Wong, "Model for detecting pedestrian accidents in urban areas using YOLOv5, YOLOv8, and YOLOv11," *Nombre de la Revista (ej. Revista de Investigación de la UNMSM)*, Dec. 2025, Published: 31/12/2025. DOI: https://orcid.org/0009-0008-6474-2691.

Volunteering & Leadership

- M. Saavedra, "Organizer: Competitive programming event," in *ENEISOFT (Encuentro Nacional de Estudiantes de Ingeniería de Software)*, Fostered community growth and provided a platform for students to demonstrate algorithmic skills., Nov. 2023.
- M. Saavedra, "Organizer: Reinforcement of computer tools and TICS for teachers," in *CERSEU - Facultad de Ingeniería de Sistemas e Informática - UNMSM*, Trained educators in digital tool integration to enhance interactive learning environments., Apr. 2022.

Stud. High School

I.E.P.S. 61010 Fernando Lores Tenazoa

March 2014 – Dec 2018
